
INFINITE SPUR AND GLOBALEDU SIGN A COLLABORATION AGREEMENT FOR THE PROMOTION OF GLOBAL LEADERSHIP AND CITIZENSHIP COURSES

Madrid, February 20th, 2023

- **The agreement signed between both organizations will allow students from globalEdu's partner universities to participate in the different international programs, both virtual and immersion courses provided by Infinite Spur.**
- **Our collaboration will start the upcoming summer of 2023 with a program focused on leadership and global citizenship. The two-week experience in Spain explores leadership principles and a complete program of visits to different institutions and NGOs while participating in round tables that explore different topics.**
- **globalEdu, Consortium of Costa Rican Universities for international education, is a leading organization focused on promoting and implementing educational programs. Its members have more than 200 bilateral agreements with public and private universities worldwide.**

Infinite Spur and globalEdu signed an agreement to implement and promote international courses, both virtual and immersion, among students from partner universities. This agreement aims to promote international quality training courses for faculty and students in different academic fields. The agreement signed at the beginning of this year includes online faculty training programs and student virtual and immersion programs focused on leadership and global citizenship courses.

For Infinite Spur, this agreement represents an excellent opportunity to expand its presence further in Latin America and start working directly with Costa Rica. It is a privilege to become a part of globalEdu, a robust academic network that brings together some of the most prestigious universities in the country, such as INUBE, the Autonomous University of Central America, the Iberoamerican University, or ULACIT (Latin American University of Science and Technology). With this new collaboration Infinite Spur's programs will reach a vast majority of Costa Rican students.

Our collaboration will have a major event this summer with the implementation of a two-week program in Spain based on Leadership and Global Citizenship that will take place from August 19th to September 3rd. The goal is to provide students with a leadership training program to enhance their leadership skills in an international environment as they look at their professional future. The experience includes a complete agenda of visits to different official entities, public and private

institutions, and NGOs exploring topics such as citizenship, governance, health, and education at the global level.

We are very pleased to initiate this relationship with Costa Rica and look forward to developing many more activities in the future.

The highlights of the summer program include,

- A transformational leadership program.
- Academic visits to businesses, institutions and organizations, meetings with professionals of different areas and participation on round table discussions.
- Full cultural program exploring the city of Madrid.
- Field trips to explore different historical, artistic, and cultural sites.
